SIT708 MOBILE APPLICATION DEVELOPMENT

NAME: TRONG HOANG NGUYEN

STUDENT ID NO.: 222102372

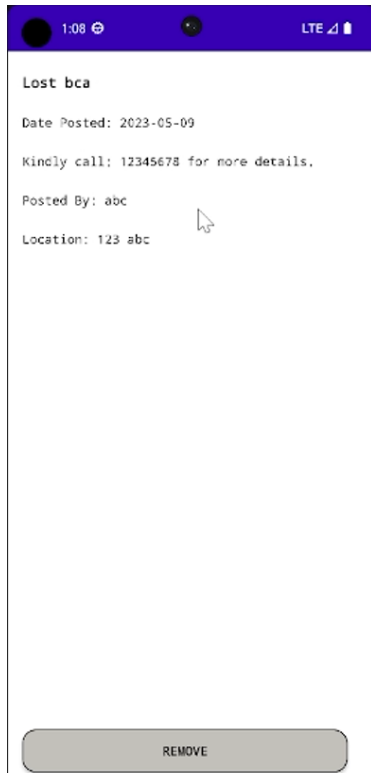

GITHUB FOR THIS TASK: <https://github.com/ngtronghoang97/Lost-and-Found>

The image displays two side-by-side mobile application screens. Both screens have a purple status bar at the top showing the time as 1:08 and LTE connectivity. The left screen features two large, light-gray buttons with rounded corners: 'CREATE A NEW ADVERT' and 'SHOW ALL LOST & FOUND ITEMS'. The right screen is a form for creating an advertisement. It starts with a 'Post Type' section containing two radio buttons, 'Lost' (which is selected) and 'Found'. Below this are five text input fields labeled 'Name', 'Phone', 'Description', 'Date', and 'Location'. At the bottom of the form is a light-gray 'SAVE' button.

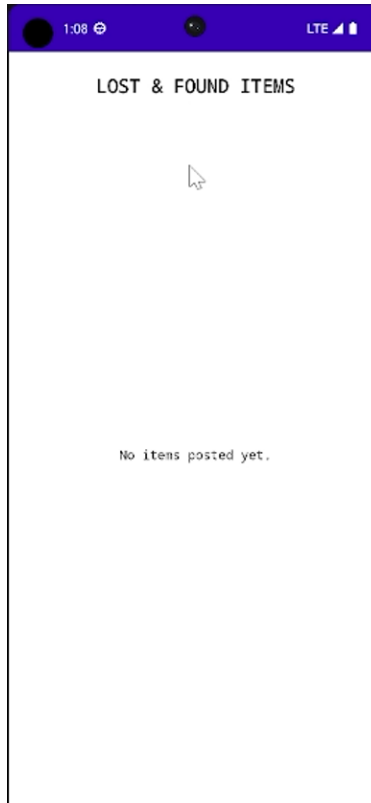

This is the application background

The image shows a mobile application screen with a purple status bar at the top (time 1:08, LTE). The screen title is 'LOST & FOUND ITEMS'. Below the title is a list of items. The first item in the list is 'Lost bca', which is displayed in a light-gray box with a thin border. A mouse cursor is visible over the text 'Lost bca'.

List of lost and found items

This is the details of the lost and found items

After removing the lost and found items
